

## THE CANVASS+ VIRTUAL LEARNING ACTIVITY WAS A SUCCESS!

In the days between **18 and 30 June 2020**, over 40 people participated by videoconference in the two days of the **Virtual Learning Activity** of the CANVASS project. The training event, which was originally supposed to take place in person in Heraklion, gave participants the opportunity to try the contents of the **CANVASS kit**, exchanging their views and ideas with the partnership organizations and other connected teachers from all over Europe.

At a historical juncture in which the debate on the importance of modernizing and digitizing teaching tools and methodologies has acquired new relevance, CANVASS + has given the organizations involved the opportunity to share experiences, fears and hopes regarding the future of the school.

**JOIN THE CANVASS NETWORK AND EXPRESS  
YOUR OPINION ON THE FUTURE OF THE  
EUROPEAN SCHOOL!**

### Few comments from the participants

*"In my opinion this program will be useful for teachers who aren't familiar with the use of social devices in their classes, as it provides an excellent opportunity to learn more about social media and how to use in the classroom."*

**Y. Gomez (Spain)**

### Few comments from the participants *On the learning activity*

*"Very useful information, considering the fact that the future of education will become more and more digitalised. Great exchange of experience.."*

**M. Raducea (Romania)**

### WHAT'S NEXT?

CANVASS is about to finish! On August 31, the project will be completed after 36 months of work.

Stay tuned: in the next days, we will publish on [canvass.eu](http://canvass.eu) the **pledge of association**, that teachers and schools may sign to become full member of the CANVASS NETWORK!
