

# CANVASS+ PROJECT

## CONTENT AUDIO VIDEO MANAGEMENT SYSTEM

### AUGUST 2020

### THE CANVASS+ PROJECT IS OVER!

After 36 months of work, meetings, learning activities and sharing of knowledge and expertise, the CANVASS+ project is coming to an end.

Partners held on July 14 the final project meeting, in order to finalize the project activities and discuss plans for guaranteeing that the project impact will last also after the end of the activities of the partnership, involving new stakeholders and keeping the CANVASS spirit alive.

### PRINT AND SIGN THE CANVASS NETWORK AGREEMENT AND JOIN THE TEAM!

Are you interested in joining the CANvASS+ Network and become member of a transnational group of schools, teachers, trainers and educators who want to use the project methodology and keep it in line with the need of the world of education?

Download the Network Agreement, fill it with your data and enter the CANvASS+ network for free, sharing ideas and experiences with an international network of teachers and trainers, fully becoming an ambassador of digital innovation.

You can download the document (in English) [here](#)

Find here some information on what's next!

#### NETWORK AGREEMENT

Oggetto: creazione e gestione di ambienti digitali per la formazione e l'orientamento

#### Premesso che

Canvass+ network vuole dare vita ad una rete di organizzazioni, insegnanti, docenti e formatori del mondo dell'istruzione, della formazione, dell'orientamento e della società civile che scambino e condividono risorse e strumenti per promuovere l'innovazione e la didattica digitale. L'opportunità di creare tale network è offerta dal progetto "Content Audio Video mAnagement SyStem Plus - CANVASS+ - 2017-1-IT02-KA201-036749", un intervento finanziato dalla Commissione europea nell'ambito del programma Erasmus + KA2, di cui ERIFO è il capofila ed in cui prendono parte altri 8 organizzazioni di 4 Paesi europei (Italia, Spagna, Grecia, Romania). Avendo il programma ERASMUS + la possibilità di affiliazione, anche in corso d'opera, "sostenitori" è deciso di creare un network di ambasciatori della didattica digitale ed innovativa, per un pro scambio di esperienze e metodologie.

## THE PRODUCTS

### THE FIRST INTELLECTUAL OUTPUT – THE REPORT

CAnVASS+ research is a research on best practices for the integration of technology into traditional didactics. With this objective, this e-book identifies a series of successful experiences in the countries of the partnership (Italy, Romania, Greece and Spain), analyzing them and trying to understand which contribution they could bring to the development of digital innovation in schools. The partnership has identified 34 good cases, interviewed their implementing operators and tried to build up a pathway for the exportation of their most interesting and fascinating features

### THE SECOND INTELLECTUAL OUTPUT – THE OER

CAnVASS+ OER is an open software, with cloud-based tools and Creative Commons license, required for the creation of digital open educational resources and high quality multimedia educational products. CAnVASS+ software will simplify the production of digital learning resources for teachers, helping to spread the use of visual learning techniques. CAnVASS+ OER aims to provide to those teachers and trainers interested in combining traditional and digital didactics an easy and completely free tool to create their own educational videos and multimedia contents.

### THE THIRD INTELLECTUAL OUTPUT – THE MOOC

The CAnVASS+ Massive Open Online Course has the objective of providing a support for increasing digital awareness and digital skills of teachers. Having this purpose, the partnership will try to respond the needs of teachers and trainers with low digital skills by providing them lessons that will both give them general information concerning the use of digital technologies and platforms in class, and suggestions concerning how to apply them in a creative way in classes, thanks to the contribution of the information collected by the partnership in the context of the First Intellectual Output.
