

THE CANVASS PROJECT

FIRST NEWSLETTER – MAY 2018

A new European project starts, it is implemented within the framework of the **Erasmus + Strategic Partnerships for school education program**. The goal of **CANVASS + "Content Audio Video mAnagement SyStem Plus"** is to promote the exchange of good practices related to teachers' lifelong learning paths to contribute to the innovation of teaching through the improvement of digital competences.

WHAT IS CANVASS?

The CANVASS + project aims at innovating traditional school teaching by providing tools to strengthen teachers' digital competences.

By promoting a greater exchange between traditional competences and digital skills, CANVASS + will make the learning process more participatory, personalized and active.

WHAT CANVASS WILL OFFER

- A) An e-book containing an international survey on the most interesting good practices for the use of digital technologies in traditional didactics
- B) An open electronic resource to support the use of digital technologies at all educational levels, allowing professors to create video-lessons in a simple and effective way with an interface accessible even to those who do not have high computer skills
- C) A free online course for teachers to increase their digital skills and encourage their use of technology within the classroom.

THE FIRST PROJECT MEETING: THE BEGINNING OF A PATH

On the 14 and 15 December 2017, the first meeting of the project was held in Rome, at the headquarters of the coordinating organization ERIFO, in the presence of representatives of all partner organizations..

Follow us on social media and contact the national reference persons for CAnVASS+ project!
